

Er. Princy U

Assistant Professor (Electrical Engineering)

Department of Renewable Energy Engineering

Kelappaji College of Agricultural Engineering and Food Technology (KCAEFT)

Kerala Agricultural University, Kerala, India

Er. Princy U is currently serving as Assistant Professor (Electrical Engineering), Department of Renewable Energy Engineering, Kelappaji College of Agricultural Engineering and Food Technology, Kerala Agricultural University, Kerala, India. She has over 7 years of teaching experience in Kerala Agricultural University and research experience at Undergraduate and Postgraduate levels. She is an active professional member in IEEE and contributed significantly to academic research with six publications in international journals/proceedings of the conferences including IEEE conferences.

Her areas of interest include: Power Systems, Renewable Energy engineering, Electrical Machines, Basic Electrical engineering, Electronic devices and circuits, Instrumentation and process control systems. Her Research experience is in the field of Stability Margin Assessment of Renewable Integration in Kerala Grid.
